sad news of her untimely death.

The funeral took place last Wednesday afternoon. Rev. Hoverstein
of Ryley officiated both at the home
and at the grave. Mr. Hoverstein
spoke touchingly on the christian
life of the deceased, he told how she
had waived the pleasures of this life
and how she had devoted herself to
the service of her God and family the service of her God and family and that she was in every sense of the word, a true christian woman, a faithful wife and a loving mother.

Mrs. Gulbraa's funeral was one Mrs. Guidraa's lunerar was one of the largest ever held in Irma and the beautiful floral tributes of loving remembrance reposing on her grave attest to the esteem and high regard attest to the esteem and high regard in which she was held by her host of friends and neighbors. The pall bearers were M. A. Larson, Olaf Larson, Jos. Gulbraa, John S. Gulbraa, John S. Gulbraa, F. S. Johnston and N. Fluvos. The bereaved ones have the sympathies of every one in the district, as everyone realizes the supreme sacrifice and the gloom that has befallen the husband and five motherless children. She was laid at rest in the Irma Cemetery. May she rest in peace.

"Maska and Inside Passage" is the title of a new publication just issued by Mr. W. E. Duperow, general passenger agent of the Garl. P. Railway. It describes in defail the Alaskan cruise which is offered on the steamships of the Grand Trunk Pacific, and explains why this railway with its terminal at Prince Rupert, is able to offer a trip to Alaska at so much less expense than it can be made by any other line. The folder will also be useful to those comtemplating a trip to the Pacific coast even if they are not making the Alaskan cruise. The inside passage, the wonderful waterway along the coast of Washington, British Columbia and Alaska, a sheltered lane along which great steamships ply for over one thous and miles, is described in detail. This passage, asys the booklet, is a like zecontinuance of the Grand Trank Pacific Railway providing what is unique on the American Continent, a combined rail and sea Transcontinental route.

Machine Gunners Task

A higher degree of physical fitness is required in the machine gunner than in the soldier of any other branch of the army. Size is not so important as good health and muscular strength. The machine gunner must be capable of carrying his gun, crawling on his hands and knees with it, or running with it if need be.

matters, child welfare, prevention of disease, local neighborhood needs industrial and social conditions.

It is the intention of the Viking Institute for the present to devote their energies largely to Red Cross work. The meetings will be held on the 3rd, Tuesday of each month for the present in the United Christian Church in conjunction with the regular Red Cross meetings. It is the Pope of the Institute that many ladies of our town and surrounding community will identify themselves with this worthy institution. All women and girls over sixteen years of age are eligible for membership.

Fierce Bayonet Charge

The Scream of Shells Overhead, the Bursting of Shrapnel and the Whirr of Bullets

In a remarkable letter to his mother a corporal sketches in graphic phrases the sensation of a bayonet charge.

er a corporal steetbes in graphic phrases the sensation of a bayonet charge.

"On the Sunday we left I am sorry to say it was the last journey up tor a great many of our boys. On the sunday in the support trench, and it was on Monday morning that we were told that we were to make a charge in the afternoon. My heart almost stopped beating when I was body was quivering with fright. It is really awfully exciting reading about these bayonet charges, but I would rather my perience finished there. "However, about five octock we meet and prompt to the hour we scaled the parapet and, amidst a storm of shells and shrapnel, we charged. For a couple of hours previous to the charge the artillery lad bombard. So the file. They continued the bombardment during the charge, and I never hope to see anything like it again. The scream of the shells overhead, the bursting of shrapnel and them a cry from one of the boys, combined to create a medley of sound never before experienced by me. It was hell while I tasted."

Where the Villian Gets His
"The Bentleman is in error, say's flindinche farst act is ended," say's flindinche farst act is ended," say's flinthe gentleman is in error. The
second set has ended. In the first
act, if we hav, not forgotten our
melodrama, the diabolical plot is conceived, the villian makes his plans
from the hero's standpoint seemingly full of promise. In the second act
the villian puts his plans into execution; the curtain falls upon the herotion; the curtain falls upon the heroting train, or to be blown to pieces by,
a bomb. Vice is triumphant and the
villian gleeful. It is this act that we
have just witnessed, with Hindenburg rubbing his hands and chuckthe villian "gets his."

Belgian School Children Hear Guns and the Screech of Shells
One of the most amazing sights along the Belgian front is a school for children which is being maintained close to the fighting lines by the army through General Rucquoy, the chief of staff. Here about 25 years are supported by the army through General Rucquoy, the chief of staff. Here about 25 years are being cared for during the day in a school which is less than four miles from the German trenches. Great shells pass with their wick-work of the service of the servi The God of His Ancestors

LMOST everybody is living under a tense nervous strain during these trying times, but the burden rests particularly heavy on the women in the home. Whatever their employment about the house, the mind has much time to dwell on the dreadful things that might happen.

There is nothing so wearing on the nere is nothing so wearing on the nerves as worry and anxiety. Nerve force is consumed at an enormous rate, and as the nerve cells become starved and depleted you find yourself unable to rest or sleep. You soon get so you can only see the dark side, and become down-hearted and discouraged. Headaches, neuralgic pains, indi-gestion and failure of the vital organs to properly perform their functions are among the symptoms which tell of exhausted nerves and low vitality.

Or exhausted nerves and low virality.

Dr. Chase's Nerve Food will help you if you will only give it a chance.

We know this from long experience with this great food cure. We have proven it by evidence published in this paper from times to time. It only, remains for you to put it to the test.

remains for you to put it to the test.

You may wonder why people are so enthusiastic in recommending this treatment for the nerves. But you will understand after you have experienced the benefits that are to be obtained by its use.

You will find yourself resting and sleeping better, appetite and digestion will improve and you will know, again the joy of good health.

ANADIANS have good reason to be proud of the position Canada holds in the world today. This pride is justified by the activities of her people, by her unlimited natural resources, by her splendid institutions, and particularly by her Industries.

Facts about the immensity of some Canadian industries would astonish most people.

These industries, when viewed in the light of comparison with other countries, are simply tremendous.

mendous.

The growth of any industry is limited to the number of people it can serve, and that is a fact not often properly appreciated when Canadian industries are compared to similar enterprises in, say, the United States.

to similar enterprises in, say, the United States.

For example: the population of the United States exceeds 100,000,000. Opportunity for industries there is almost unlimited. In comparison, Canada with its seven million population is a small country—yet in spite of this compariatively small population, Canada possesses several industries which in actual size rank among the biggest in the world.

In shoemaking, one Canadian concern has developed a volume of business and a service to the Canadian people which is not

equalled by another shoe manufacturer anywhere in the world. This concern, if located in the United States, would rank as one of the twelve largest out of some two thousand shoe manufacturers there.

there.

While the sales of the largest shoe manufacturer in the United States—selling to the American people—do not exceed twenty-five cents per capita per year, the sales of Ames Holden McCready to the Canadian people last year were approximately eighty cents per capita.

In a comparative sense, there-fore, this Canadian concern is greater than the foremost Ameri-can shoe manufacturer in the United States.

Thus Ames Holden McCready truly merit the distinction of their title "Shoemakers to the Canadian Nation."

Just imagine for a moment the enormous work of supplying a large portion of Canada's 7,000,000 people with its boots and shoes:

—it requires—huge up-to-date fac-tories equipped with the most modern machinery able to turn out 8,000 pairs of shoes a day.

out 8,000 pairs of shoes a day.

—it requires—a variety of nearly 800 different styles to meet the requirements of all classes of people, for different grades, shapes and kinds of shoes.

rints of shoes.

—it requires—the maintenance of six large distributing branches in principal cities from east to coast, and in these are carried over a million dollars worth of stock, ready for quick delivery to retailers.

—it requires—sixty travelling sales-men to call on the retail trade, because out of approximately 10,000 retail dealers who sell shoes in Canada, more than 5,000 handle A.H.M. Shoes.

A.H.w. Shoes.

—it requires—many other details
of organization and equipment,
but this brief outline will give you
some slight idea of the part that,
this great shee concern is playing in
the business of supplying footwear
to the Canadian people.

You will be interested in these facts, because the next time you buy footwear bearing the A.H.M. Brand, you will know that they are the product of a large and efficient organization making shoes which will in every case give you the greatest value for your money.
